C3255 Checkweigher

Features

Display type– 7-segment LCD with annunciators and bar graph. Large 1.2" digits.

Battery option– uses 6 "C" cell batteries allowing remote operation and portability. The battery supports over 250 hours of continuous operation.

Ten preset targets– allows quick selection of the items to be weighed. Setting new targets is quick and simple via the keyboard.

Unit switching– is accessed through the "mode" key. Either lbs, kg or oz may be selected.

Count function– A simple and accurate feature is available under the "mode" switch.

Target graph– In the checkweigher mode the graph indicates over, under or accept with a full visual representation of the weight in relation to the target.

Folding Column– The display unit folds down for storage and shipping.

Selectable Calibration Settings– Choose from full, 1/2, and 1/4 capacity.

Key Functions– On/off, mode, net/gross, zero, tare, call, 0-9.
