The PC-6 is less than nine inches square, so it doesn't take up valuable counter space in stores and fits easily in kiosks or vendor carts.

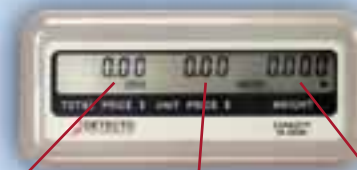

Featuring both push button and keypad tare, 115 or 230 volt power, the PC-6 works the way you do. The smooth lines of the molded poly enclosure, lift-off stainless steel commodity tray, and sealed membrane keypad make cleaning quick and easy.

Position the display where it works best for you and your customer - the back, either side of the platform, or remove it from the scale and mount it on the wall.

The sharp LCD display provides weight, unit price, and total price together on one line and is mounted four inches above the tray for easy viewing.
